Members: P. Bisták, J. Cigánek, O. Haffner, M. Hypiusová, K. Knežiková, M. Kocúr, E. Kučera, J. Osuský, E. Stark

SCOPE OF THE CONFERENCE

The conference focuses on presentation of control methods and their algorithms, their integration into modern information and communication technologies according to the latest development trends in Industrial Internet of Things (IIoT), and their industrial applications. The conference aims to provide a general forum for researchers, university teachers and users dealing with practical problems of control and ICT. Conference papers may range from theoretical works to engineering applications. Keynote speakers of the conference will be leading personalities in control engineering, ICT and IIoT.

TOPICS

- Methods and algorithms for modelling and control of industrial processes
- New information and communication systems with IoT techniques in control
- Embedded, distributed and networked control systems
- Application of control methods in industries

IMPORTANT DATES

Submission of full papers: January 7, 2018

Acceptance notification: January 10, 2018

Final paper submission: January 19, 2018
